

Seductively charming woman
Especially one who beguiles men
Turning them all to destruction

I don't believe that what I'm
Doing is in any way offensive
To men

There is something fabulous
About a beautiful woman
With a round figure and blue eyes
These gorgeous creatures
That makes it difficult for people
To see anything for what it really is

Nobody has ever pushed me around
And I'm totally dedicated when it comes
To work

It's amazing to see what she can do
With her body she has to tilt her head
Back and up then whip it around and
Come out of it with such a great
Expression on her face

She knows exactly what she's doing
In her business what she's wearing
Professional and precise everything
Has to be in sync at the same time
In the middle of focusing

I don't believe that the recipe for
Perfect happiness is through a
Beautiful girl sometime it's the
nature
That's soft and the woman that's
Hard I fell and broke my leg
